EDUCATION

Universitas Gadjah Mada | Yogyakarta, Indonesia

Master of Engineering in Information Engineering (Feb 2025 – present)

- Current GPA: 3.65
- Thesis: Applying Gradient Penalty in Neural Ratio Estimation to Obtain Calibrated Estimators in Small Simulation Budgets

Universitas Esa Unggul | Jakarta, Indonesia

Bachelor of Computer Science (Sep 2018 - Aug 2022)

- GPA: 3.83 (Cum Laude) [[transcript](#)]
- Highlighted Achievements:
 - Best Graduate of Class of 2022.
 - Received full scholarship for all years study.
 - 2nd RU Most Outstanding Students of Jakarta Region.

INDUSTRY EXPERIENCE

Xaltius | Singapore, Singapore (Remote)

Software Quality Assurance (Apr 2024 - present)

- Handle Adroit web & mobile apps (an AI-based learning management system).
- Conduct end-to-end manual testing covering user interface, functionality, compatibility, and API validation.
- Develop and execute automation scripts for regression testing to ensure consistent product stability.
- **Tools and Tech:** Appium, Python, JIRA, Sentry, Playwright

Sinar Mas Financial Services (Simas Jiwa Insurance) | Jakarta, Indonesia

Project & Product Manager & QA (May 2023 - Jan 2024)

- Managed web-based pension fund management and non-insurance platforms (HRD, Legal, Compliance).
- Defined requirements, user stories, and feature priorities aligned with business and customer needs.
- Coordinated cross-functional delivery, user testing, feedback iteration, and stakeholder updates.
- **Tools and Tech:** Redmine, Smartsheet, Confluence, MS Office.

DANA | Jakarta, Indonesia

Associate Software Development Engineer in Test - Front End (Mar 2022 - May 2023)

- Worked under Bills Payment, QRIS Payment, Cashier, Transaction History, and other payment features.
- Performed manual and automation testing to validate functionality, UI design, UX flows, back-end integration, and system reliability.
- Created and maintained automation test scripts, test cases, and bug reports while collaborating with product and developer team.
- **Tools and Tech:** WebdriverIO, JavaScript, Appium, Mixpanel, Bitbucket, Confluence, XMind, TestRail, JIRA.

Smartfren | Jakarta, Indonesia

QA Automation Engineer Intern - Back End (Nov 2021 - Jan 2022)

- Work under Billing Product team and get involved in some release projects within developer.
- Perform an automation testing where I create test plan, test case, test scenario, test report documentation, and evaluate test result.
- **Tools and Tech:** Katalon, JIRA, Ms. Excel, SQL.

Skilvul | Jakarta, Indonesia

UI/UX Designer Intern (Aug 2021 - Dec 2021)

- Work on Mentor On-Demand feature project.
- Involve in the end-to-end design process (user research, wireframing, UI design mockup, prototyping, and usability testing).
- **Tools:** Figma.

ORGANIZATIONAL EXPERIENCE

Student Representative Council, Faculty of Computer Science

Vice President (Oct 2020 - Jan 2022)

- Led 6 divisions (20+ staffs) as a legislative council.
- Collect student's aspirations in supporting faculty development and student welfare.
- Develop the faculty regulation draft.

Student Association of Informatics Engineering

Head of Communication and Information Division (Aug 2019 - Oct 2020)

- Led 3 staffs who work closely with graphic design and social media optimization.
- Create various content to be distributed on the organization's social media.

SKILLS

- **AI/ML Skills:** Python, Machine Learning, Deep Learning, Data Preprocessing, Model Evaluation, Feature Engineering.
- **Software Testing Skills:** Manual Testing, Automation Testing, API Testing, Functionality Testing.
- **Other Technical Skill:** UI/UX Design.
- **Soft Skills:** Analytical Thinking, Problem Solving, Teamwork, Leadership, Public Speaking.
